

# BACCARAT SMART DISPLAY SURFACE

# ELEGANT DISPLAY

## For Each Baccarat Game

### **Major Components**

Smart Display Surface 0.05 cm thin surface that is compatible with 3 major popular brand of shoe (Angel Eye, Bee Shoe and iShoe). Lights up the whole area of result during the end of each game.

Communicates with our iMarker. Easy to install, is definitely one of its kind.

### **iMarker**

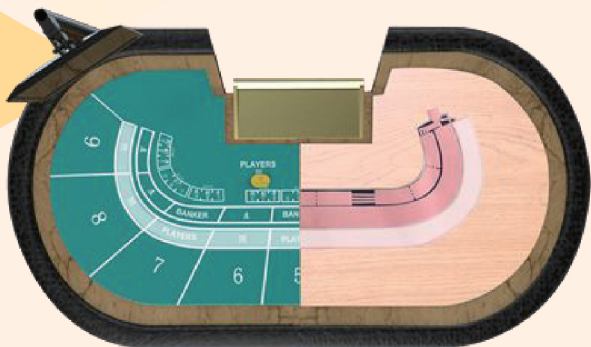

Communicates with our Smart Display Surface, sends out alert when misplaced into any wrong area to affect the game result.

### **Charging Station**

Charging of iMarker takes place within a Charging Station that can charge 4 pairs of iMarkers at the same time.

### **Plug-and-Play Controller**

A Controller that can hang underneath the table. Smart Display Surface connects easily with our Controller.

### **Light takes form of any Shapes**

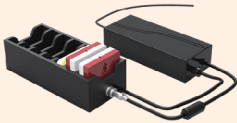

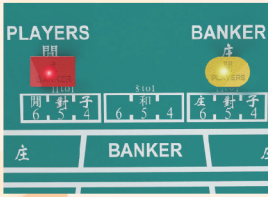

Our light takes form as a 0.05 cm thin pad that can just slip right under the flannel and light up the area. Its so innovative and elegant that your players will play non-stop.

### **Stylish Light up Effects**

Our light is so cool and smart that we are able to apply design to its effects. When result is being displayed, the light indicates by lighting up the whole area (or any other shapes required). It can also appear as flashing or lights up from left to right or up to down.

# iMarker Smart and Fully Automated

## “Placement” Indication

With the newest technology applied to our Smart Display Surface, our iMarker is able to detect its own location and alerts when the wrong placement has been made. This simple alert will eliminate the chances of playing of the wrong hand of cards.

## “Parking” Indication

Not only placement can be detected, the “parking” of the iMarker during idle time can be detected and alerted too. This will further wipe out the slightest possibility of dealing with wrong cards.

## Smart Battery Management

iMarker runs on battery and will be turned off when turned upside down. Also, an indicator will go on when battery reaches below 10%.

## Charging Station

iMarker takes couple of hours to fully charge and can function for 2 days of continuous usage.

**Plug-and-Play** Smart Display Surface and iMarker is basically a plug-and-play product that can be used right out of the box
