WELCOME MESSAGE

In just a glimpse, we have entered into the new year of 2011. The global economy in general has been in recovery zone since last year with some patches of weaknesses. On the gaming market, it proven to be remarkably resilient and is on track to recovery alongside with the economy.

The year of golden Tiger had certainly cheered at the Lion city where we had witnessed the took-off of two integrated resorts at Singapore in first half of 2010. In addition, we also see desirable opportunities with the gaming developments at The Philippines. All these key developments burgeoning around bring positive vibes to us at RGB and the overall gaming landscape.

In keeping our promise to continue develop competitive products that offer good investment returns to our business partners, I am happy to share that we have officially introduced our RGB Games' Pac-Man Progressive Poker series at the G2E Asia Global Gaming Expo at Macau in June 2010. Marching on the favourable response, we have further strengthened our Pac-Man Series with added features.

In this issue, we have added "Pac-Man's Double Extra Hand" and "Pac-Man's Wild Extra Hand" which give players the extra edge with the extra poker hand. The Extra Hand feature also gives players the chance of hitting 2 jackpots simultaneously! We will continue to improve and strengthen our R&D effort that synchronizes technology, experience and expertise to continue our quest to introduce more exciting games under RGB Games series. Riding on the growing potentials in the gaming industry in Asia, we are motivated to stay.

AN INTRODUCTION TO RGB'S *Colourful* JOURNEY

RGB has grown from strengths to strengths since its inception on 1986. It all started from a humble operation in Penang, Malaysia offering sale of electronic gaming machines and amusement machines to the now, public listed conglomerate listed on the Main Market of Bursa Securities Malaysia Bhd. Today, we have more than 700 workforce employed under RGB business operations at Penang and Kuala Lumpur, Malaysia, Cambodia, The Philippines, Macau SAR, Singapore, Lao PDR and Vietnam.

Through thick and thin, challenges and adversities, today, backed by the experience acquired over the last 25 years, RGB has positioned itself as one of the leading supplier of choice providing integrated solutions to the growing gaming industry. RGB is primarily focus on sales, marketing & distributing internationally well known electronic gaming machines & casino equipments, assembly and manufacturing its own proprietary products, machines concession program & technical support management provider.

The hallmark of our success lies on the strength, commitment and loyalty of our people. We are not who we are today without the endless supports from our business partners and the confidence bestowed upon us from our valued shareholders.

Thank you for sailing with us for 25 years of Colourful Journey.

CABINET FEATURES

MERGING INNOVATIVE
CONCEPTS & TECHNOLOGY

■ **High Performance, Compact Design**
RGB Games' sleek, compact cabinets are 70% slimmer than conventional cabinets, leaving smaller footprints. Slimmer cabinets reduce floor area occupancy and allow for full profit maximization.

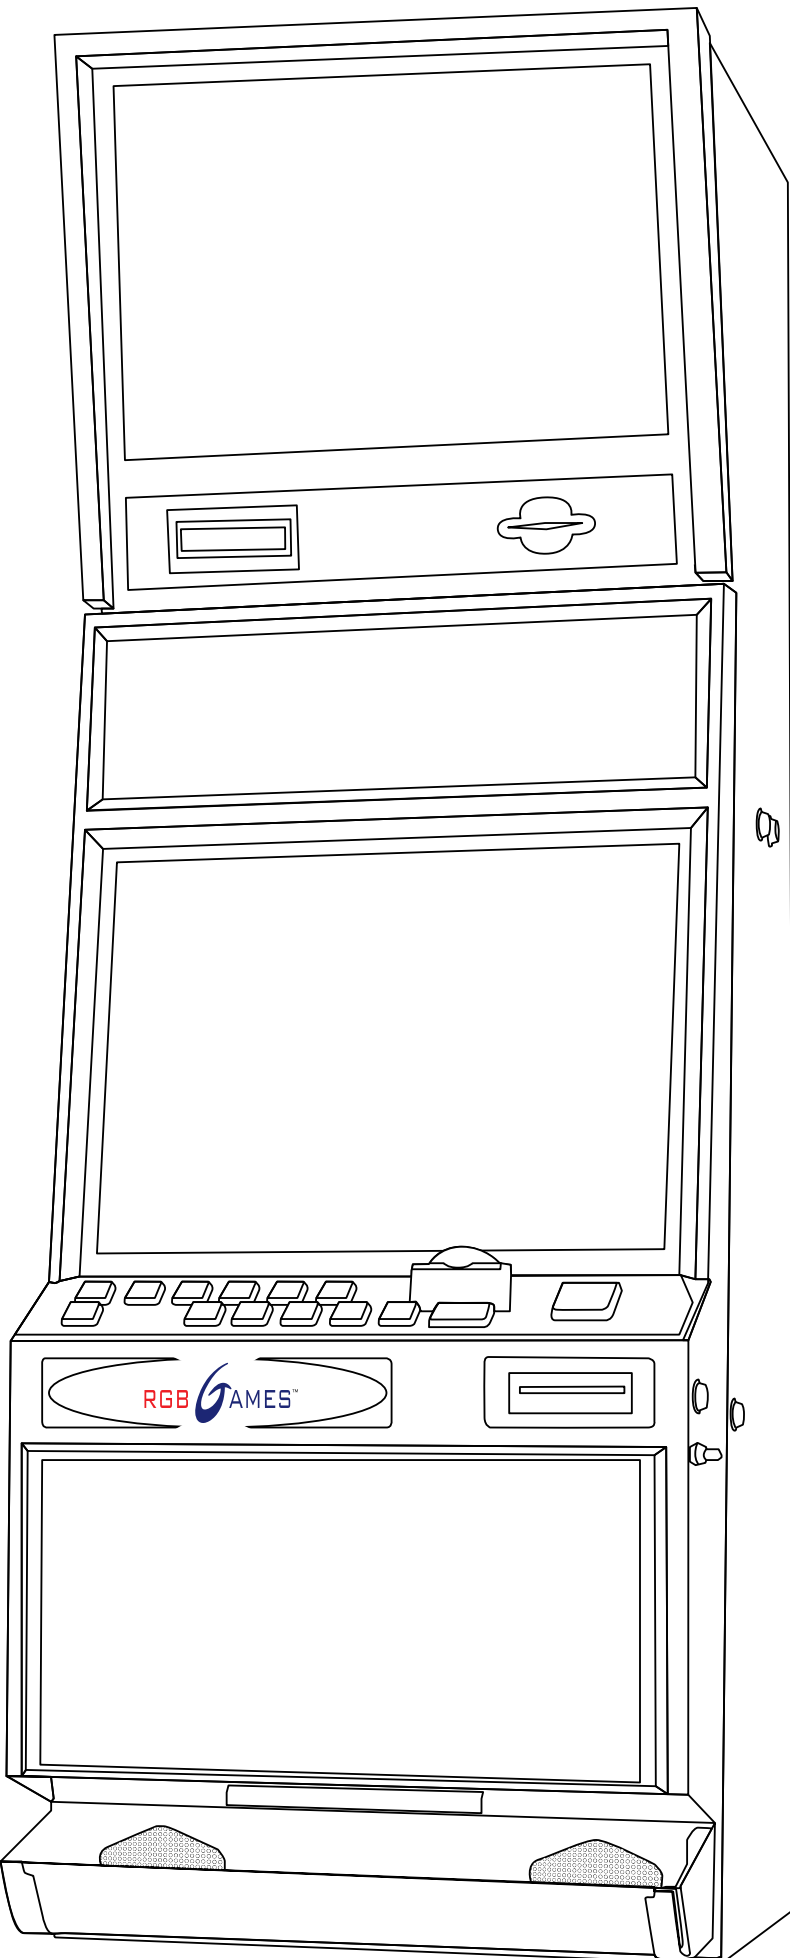

■ **Superior Quality**
RGB Games offer quality cabinets with chrome finishing on the surfaces to add a touch of class to its cabinets. Strategically positioned buttons enhance players' gaming experience, indirectly extending players' playtime.

■ **Crystal Clear Visuals**
Large 19" LCD monitors provide for life-like animations and visuals, increasing excitement and enhancing game play at the same time. These non-glaring TFTs also reduce eye fatigue, thus encouraging a longer playtime.

■ **Top Quality Audio**
Excitement and entertainment are maximized with CD quality audio and are enhanced via four multi-channel speakers to create the optimum surround effect.

■ **Unique, Attractive Artwork Films**
Our cabinets' attractive artwork films increase their floor presence and complement the games. Films replacements can be completed in a matter of minutes and as such, will reduce the downtime needed for game conversions.

■ **Compact Game Content Deployment**
Game deployments via compact flash cards will allow for fast game conversions and convenient handling.

GAME CLASSIFICATIONS

PROGRESSIVE JACKPOTS

RGB Games' progressive jackpots feature multiple progressive jackpot variants to cater for the various requirements of the gaming floor. Combined with the proven performance of our portfolio of base games to drive the jackpots, RGB Games' progressive jackpots will certainly be a major revenue driver of the floor.

MYSTERY

RGB Games' Progressive Jackpot - Mystery features 3 jackpot levels which are triggered randomly. Running in tandem with attractive themes and animated sequences, Progressive Jackpot - Mystery will most definitely give players the extra incentives to continue chasing for the big money win!

SYMBOL - DRIVEN

Our Symbol-Driven progressive jackpots are seamlessly integrated with the base game to create a unique and exciting gaming experience for the players. The jackpot feature is effectively an extension of the game itself and presents players the chance to win the native game features as well as the jackpots.

HYBRID

RGB Games' Hybrid is a randomly triggered 4-level jackpot. Once triggered, players are shifted to a second screen where the winning jackpot level will be determined. Our latest Hybrid themes include Wang Wang Wang.

POKER PROGRESSIVE

RGB Games now brings you Poker Progressive, fusing Poker and Jackpot to bring you the ultimate high in poker gaming. Come and feel the game with RGB Games' realistic animation plus all the excitement that RGB Games' Poker Progressive has to offer.

5 REELS

RGB Games' 5 Reels are targeted at the traditional group of players who crave for the conventional gameplay present in the current 5 Reels in the market. Players will be instantly familiar with the gameplay present in our improved 5 Reels. Furthermore, adding to their appeal are the unique blend of game themes, distinct audio effects and engaging game features that will keep both new and seasoned players completely entertained and captivated.

15 INDIVIDUAL REELS

The popular 15 Individual Reels combines the flexibility of the traditional 9 Individual Reels with the intensity of the 5 Reels to deliver an exciting and unforgettable gaming experience for players. Modelled after the 5 Reels, this series is certain to be a big hit with both new and seasoned players.

9 INDIVIDUAL REELS

The 9 Individual Reels caters to the conventional player who craves for high stakes and excitement. Known for its high volatility, this series will be enticing for players who are high risk takers! The diverse themes and rich features associated with the 9 Individual Reels will provide an alternative form of gameplay that will please loyal fans of the series.

POKER

Poker is one of the many popular types of gaming machines that RGB Games has to offer. With a multitude of variants and wide range of betting options, our Poker promises endless hours of fun and excitement and is a favourite among regular players!

SmartAccounts

The SmartAccounts module defines and automates the floor's collection process. Highly flexible and fully customizable, SmartAccounts currently features:

- **Treasury Collection Management** – EGMs' electronic meters, hard meters and actual collection data are collated and compared to provide a macro analysis on the gaming outlet's performance. This can be achieved in both offline (manual metering input) or online (real-time EGM metering) modes. Analysis can be further zoomed into the performance of individual EGMs.
- **Cashier Facilities** – streamlines voucher related processes such as handpays and even non-EGM related transactions such as promotional events, raffles, etc.

SmartTrack

SmartTrack incorporates customizable Customer Relationship Management (CRM) features and provides avenues to implement outlet / property loyalty programmes. The module currently features:

- **Player Management** – offers a complete solution to capture complete patron information which will provide the base for the implementation of various loyalty programmes.
- **Player Tracking** – works in conjunction with real-time metering to track and capture patrons' playing patterns and behaviour. This information will provide useful insights and can be used as a basis for the design of various promotional and marketing programmes.
- **Loyalty Programme** – realises the play for points concept on the gaming floor. Players are rewarded for their bets and these points can then be comp'ed based on the available comp programmes.

SmartWeb

SmartWeb is the web extension of comprehensive analysis and management reports which can be accessed at virtually anytime and from virtually anywhere:

- **EGM Performance Analysis** – generates macro and micro performance analysis for the EGMs on the floor.
- **Comprehensive Management Reports**
- **Data Warehousing**
